

CERTIFICATION OF LOGIC AND ACCURACY TEST OF ELECTRONIC POLLBOOK EQUIPMENT

I, the General Custodian of Election Records, do hereby certify that the Logic and Accuracy Test of Electronic Pollbook Equipment for the 11/04/2025 Constitutional Amendment Election was successful.)

I certify that:

- The test successfully verified that the database of voters is correctly loaded onto the system and devices.
- The peripheral devices used with the system were tested and are functioning correctly.
- The test successfully verified that the ballot styles were correctly assigned to each voter.
- The test successfully verified that any ballot issued by the system and any peripheral devices used with the system are being correctly read by the voting system that will be used in the election.

The test was successful and was concluded at 12:45pm on 10/08/2025.

**CERTIFICATION OF PUBLIC LOGIC AND ACCURACY TEST, HASH VALIDATION
AND FIRST TEST OF AUTOMATIC TABULATING EQUIPMENT**

We, the Presiding Judge of the Central Counting Station and the General Custodian of Election Records, do hereby certify that the hash validation comparison, Public Logic and Accuracy Test and the First Test of the Automatic Tabulating Equipment to be used to count the ballots for the Constitutional Amendment Election Election to be held on 11 /04 /2025 was conducted
(name of election) (date of election)

using a predetermined number of valid votes for each candidate and for and against each proposition on the ballot for the election. Each contest position, as well as each precinct and ballot style was able to be voted and was accurately counted. Each type of device that will tabulate ballots including precinct scanners and/or central scanners, whichever is applicable, was included in the testing. The test group also contained ballots with overvotes, ballots with undervotes, if applicable to the system being tested, multi-candidate races, provisional votes and write-in votes, if applicable. We further certify that a representative sample of voting system equipment was tested with a hash validation process to ensure that the source code of the equipment has not been altered. The trusted hashes for each unique device in the voting system are pertinent to the most current version of the voting system and were obtained from the Secretary of State's office prior to the Public Logic and Accuracy Test.

Instructions to Presiding Judge and General Custodian:

The hash validation process must take place at the Public Test for Logic and Accuracy. The hash validation test may be practiced in advance of the Public Logic and Accuracy Test for proofing purposes, but only the public performance of the hash validation test may be certified. If either or both of the initial tests were not successful, prepare a written record of the changes to the program, adjustments to the equipment and other actions taken to achieve a successful test and attach to this certification.

Note: If your county does not use a Central Counting Station, only the General Custodian of Election records is required to sign this form.

**PUBLIC NOTICE OF LOGIC AND ACCURACY (L&A) OF
ELECTRONIC POLLBOOK SYSTEM**

Notice is hereby given testing of the electronic pollbook system to be used for the Constitutional Amendment Election, November 4, 2025, will be performed October 8, 2025, at 8:30 a.m. in the Swisher County Courthouse Basement, 119 S. Maxwell, Tulia. The purpose of the testing is to verify the database of voters is correct, peripheral devices used with the system are functioning properly, ballot styles have been correctly assigned to voters, and ballots issued are correctly read by any voting system used in the election.

***AVISO PÚBLICO SOBRE LA LÓGICA Y PRECISIÓN (L&A) DEL
SISTEMA DE LIBRO ELECTRÓNICO DE VOTACIÓN***

Por la presente, se notifica que las pruebas del sistema de libro electrónico de votación que se utilizará para la Elección de Enmienda Constitucional del 4 de noviembre de 2025 se realizarán el 8 de octubre de 2025 a las 8:30 a. m. en el sótano del Palacio de Justicia del Condado de Swisher, ubicado en 119 S. Maxwell, Tulia. El propósito de las pruebas es verificar que la base de datos de votantes sea correcta, que los dispositivos periféricos utilizados con el sistema funcionen correctamente, que los estilos de papeleta se hayan asignado correctamente a los votantes y que las papeletas emitidas sean leídas correctamente por cualquier sistema de votación utilizado en la elección.
